Go Over.

Ottawa, May 25.—After a series of two weeks of discussion the C.N.R. aid resolutions were given a first reading last evening and stand for second reading tomorrow, then the bill will be introduced and on the second reading stage it is expected that there will be a number of divisions. Last night the Canadian delegation to the Mexican delegation expressed a tacit understanding to be reached, that the United States will regard as legal the financial transactions of the present Mexican congress.

In the protocol there will be proclaimed principles on which a study of the financial and educational problems in Mexico will be based, but there will be no mention of individuals to comprise the government.

Mainland Secrecy.

The members of the delegation intend to use every effort to maintain the secrecy of the names of the individuals until all elements of the proposed plan are in place and then to follow as far as a matter of course as soon as the new government is installed.

While there may be no secret agreement between the Canadian delegation and the Mexican delegation, the tacit understanding to be reached, that the United States will regard as legal the financial transactions of the present Mexican congress.

PROMINENT MEN OF MONCTON, N.B., PAY CITY VISIT

Deputy-Mayor and Aldermen Call on Mayor and Aldermen Shown About.

The Maritime provinces are well represented in the city today by the visit of a number of civic and business men from Moncton. The Borden party consists of F. C. Robinson, deputy mayor; E. A. Fryers, alderman; W. A. Humphrey, P. M. Steeves and R. E. Kinnear, aldermen. They arrived at the city this morning and are staying at the Royal Hotel.

In company with Alderman May they visited the mayor at the civic block at

11 o'clock this morning, and later in company with Commissioner Harrison, were taken on a tour to the exhibition grounds. Later in the day the trip west is one of business and pleasure combined and each of the party speak in glowing terms of Edmonton, and state that business in the west Edmonton looks bright and that there is much more building going on here than in any other western city. The easterners have talked with many of the prominent citizens and all state the conditions of crop at present to be most gratifying and look forward to a bumper crop.

The party will visit Athabasca tomorrow in the interests of fox-trapping, in which industry one of their numbers has large interests in Manitoba. They will have had a good day's work, however, and will make the return trip via Calgary to their fields. They will view the sights of the city today and leave for the north town tomorrow.

"LOGICAL SUASION" AND PRIMROSES TO BE FRENCH WEAPONS

Dartmouth, May 28.—The purpose is to be the emblem of the French suffragettes. This decision was reached at a congress representing 20,000 supporters of female suffrage here under the presidency of Miss Sherrill.

The suffragettes have taken to take energetic action as soon as the French parliament meets next month, when a bill legalizing the women's claims will be introduced.

Sixteen departments of France are giving their official support to the movement, whose watchword, not militancy but "logical suasion," has been borrowed from American women.

OIL FIELDS NOW VERY EXTENSIVE

Much Land Covered With Leases in All Parts of Province.

CALGARY ALL TAKEN UP
Other Districts Being Filed Upon in North and Central Alberta.

A feature of the oil boom is the demand for blue prints showing locations of oil leases and oil wells throughout the province. In the Canadian Manufacturing District, the well-known Edmonton blue print makers, are issuing maps of Edmonton and Nakamuk, Calgary, Lethbridge, Athabasca, Fort Macleod, Delin, Battle River and Wainwright oil districts are in course of preparation.

Originally the oil companies used their own oil fields are shown covered with oil leases. The leases are spreading rapidly over the other fields. The Athabasca map shows the section where the oil was drilled before the magistrate at Bow street police court today. She continually shouted, "Hurrah for Hurrah for liberty!" "Hurrah for Hurrah for freedom!" The magistrate gave her name and told the magistrate she did not want to hear anything. She kept up a voluble speech in French, punctuated by much gesticulation throughout the proceedings. She was remanded for a further hearing. When arrested, the woman was carrying a bag filled with flags, some of which she had pinned to the windows of the National gallery.

temporarily. The 10-cent issue proved very popular with local buyers, for the reason that the company has holdings in the Calgary, Nakamuk and Viking fields.

Baumont and Paraffin, the two companies which sold out their 10-cent issues, are still in existence, which are headed by local capitalists, took another jump yesterday when the news reached here that oil sands had been struck at the Union Hill field. The market for stocks of this stock are being received daily from outside places, notably Vancouver.

Fidelity, the concern with holdings in the Viking and Black Diamond, is going fairly strong, and is quoted at 50 cents, although it is stated the price will rise before the end of this week. The McNaught-Segur well, just south of the McNaught-Segur well, went up as predicted yesterday, after a run on the stock, and is now selling around 40 cents.

The oil companies are proving more and more popular, Fort McKay having gone to 35 cents after a few days' selling.

To Regain a Healthy, Girlish Complexion

If you would have a clean, fresh, girlish complexion, one ounce of ordinary mercury will not do you in this direction. It produces a natural beauty. This was, probably, the reason why the Indians wore such a bad complexion, revealing the fact that they had no mercury. The work is done so gradually day by day, that no inconvenience is caused. The wax is applied to the skin in the morning, and removed in the morning with soap and water. After the first application, the skin is smooth—this wrinkles—it is bathed your face in a solution of powdered saffron, 1 oz., dried mint, 1 oz., and a few drops of oil. A remarkable action in smoothing out the lines and "firming up" the loose tissue.

Growing Into Womanhood
The only daughter of King George and Queen Mary is growing into gracious womanhood. A few days ago she celebrated her 18th birthday, and over a hundred of the royal family were present at a ball given in her honor. For her benefit, her mother has lately chosen a beautiful young lady, the Countess of Cadogan, as her maid of honor. According to the account, the princess has plenty of character, and is a fine type of a healthy English girl. She accompanied the king and queen to the opening of the British Museum recently, and her attire was that of an Endeavor princess will be sought in marriage. She has had what, in princess or in peasant girl, is the best preparation, a happy girlhood.

WRESTLING TITLE

The first fall was awarded to the Pole after 23 minutes on a foul charge. In the meantime, Raymond Cusack, in the Diamond corner, was carried away by the excitement of a struggle at the edge of the mat with Zbyscko underneath and close to the ropes. With one hand he seized Zbyscko's throat and with the other pulled the Pole's elbow from the floor, thus placing Zbyscko at De Roen's mercy.

The referee immediately blew his whistle and awarded the Pole a fall. The second went to De Roen after 37 minutes on a rolling fall, secured with a hold-up. Zbyscko's second and deciding fall was secured after 19 minutes more wrestling.

Railway and Shipping News

That scheme of the Canadian Pacific to discover the good and bad points of its employees, with the idea of rendering more adequate justice to the individual, is creating interest on the big American coast. It is the intention of Mount Hall, general manager of the western lines, with about 40,000 employees under his direction, Sir Thomas Shaughnessy, at family banquets, has been most impressed regarding the good man might be overlooked, notwithstanding the fact that the company was on the keen lookout for the men who were to come after the men who were to come after them.

It has been felt that while the men close at hand could be measured as to capacity, the thousands at distant points of the line, extending for thousands of miles, might be overlooked in spite of the most undesirable qualifications.

Mr. Hall then appoints trustworthy persons who shall cover the west and every station, that the men themselves, unexpected, and report, not their bad, but their good qualities; how they do their work; how they conduct the interests of the company; how they appear off duty. If any must be reported, those against whom the black mark is made will have a chance to prove before having the record removed.

It is believed the merits of the men will be more certainly discovered, and, being discovered, promotion will follow upon the discovery when that

This effect, which is even now being put into effect, is regarded by the able American system as an once and eventual success. The results of it cannot be tried before the men are at the elbow of the president or at the heads of departments, are, of course, noticed and promoted, which may not yet be realized in the west. Of course, the investigation which the secret inspector can make must necessarily be superficial; nevertheless, it will have value. They can see where the men are headed; their willingness to help; zeal for the service; and these enter into character.

An important feature of the Canadian Pacific railway is the great chain of hotels in the west. This year the company is spending the enormous sum of \$1,000,000 in the construction of new ones. Harry Reed, general manager of the company's hotel system, has left the east for the west, and it is expected he will remain until the opening of the new Winnipeg extension, and the new houses at Calgary and Vancouver.

The railway, it is said, does not make large profits from its hotels. The Winnipeg house, the Royal Alexandra, despite the slump in traveling traffic, continues to show good returns, and that is to be expected for the ordinary traveler who stays there.

The addition will give 210 more rooms. When Mr. Reed was in Winnipeg recently he stated that from 50 to 60 per cent. in the new hotel would be spent on comfort. Already the finishing touches are being given to some of them. The new hotel at Vancouver will be the largest house ever built in Canada, equalled by none in the United States.

With the mountain hotels of the company the season is short, but they are well equipped for summer travel and for that reason have had to be closed often at a considerable loss.

The Canadian Northern ticket office reports that Cunard liner Almania arrived in Quebec Sunday and Montreal Monday morning. Passengers are due in Edmonton tomorrow morning.

A unique shipment will leave Edmonton Saturday for the Orient this evening. It will be a special train of about 25 cars of race horses, averaging ten horses to the car. The total value of the animals is estimated at not less than \$100,000. The horses were here for the spring race meet and are going to Saskatoon for the annual meet. Some are to be shipped as far southwest as Los Angeles, and by people as far east as Toronto and San Jose, Illinois.

There have been few steamship arrivals at the port of Montreal in the past two or three days, due to the prevalence of a dense fog in the vicinity of Cape Breton and the Grand Banks. For conditions this season are almost unprecedented, the captain says. Large fields of ice are closely packed as a result of the severity of the last winter and the comparatively few wind storms this past spring.

The Canadian Pacific railway has made a cut of 12 in its west bound immigrant rate agreed to about a month ago by the steamship lines in the North Atlantic to compete with the C.P.R. The cut is \$2.50. This may possibly lead to a rate war between the continental lines and the C.P.R.

Hallway business is showing improvement, particularly in the west. The conditions attending the seeding have been ideal and the west is thoroughly optimistic, with its faith pinned on the arrival of the first arrivals.

Arrivals for Canada at the ocean ports for the week ending May 26 total 1,110. In this bunch the British come a close second, Polish and Dutch immigrants also being represented.

Estimates furnished for Structural Steel for buildings and bridges.

SPRING RACE MEET BROUGHT TO CLOSE WITH GOOD DAY'S RACES

Wheat City Stables Came For Three Firsts—Jockey Parker Injured by Horse Falling—Par-Mutuels Paid Small Earnings, But in One Instance.

The Edmonton spring race meet was brought to a successful close yesterday afternoon with the running off of five running and one harness events. Good weather prevailed for the first time during the meet, although rain fell during the progress of a few of the late races. It was getaway day and horses who had not won were there to compete. There were three large entries and competing in their last chance on the Edmonton track. These were few surprises in the day's racing, favored horses winning most of the time, as the betting indicated they would. The highest price paid by the par-mutuels was in the last heat of the harness race, when Jerome Prince ran second and the machines paid \$21.50 to 10.40.

The Wheat City stables came to the front and took three firsts, Imperial Princess winning the 5 furlongs, and Clarendon taking the 6 furlongs and the 5 furlong dash. The only accident of the meet occurred yesterday when Miss Rose, after winning the 1 1/2 furlongs dash, righted her horse and gave Jockey Parker, the boy lifeless, and was given medical aid immediately. He was badly shaken up, but not seriously injured. Following are the results of the day's racing:

CAPITAL VICTORY IS POSTPONED BUT GAME TAKES PLACE FRIDAY

To avoid certain defeat, the gang of roller ball players who put in their lime on the First street daily, yesterday bribed the weather man, so that the game with the real team from the Capital would be delayed off as scheduled. It rained (not oil, but real water) and the crops look good.

The Capital is determined, however, that the bunch across the way shall be shown up and after a great deal of effort succeeded in getting the game off again. The mismatch contest will probably be staged under appropriate auspices Friday afternoon, if a suit of armor plate for the visitors can be obtained in time. The date will be announced later.

JASPER SPORTS A HUGE SUCCESS

Over 300 People Visit Town and Enjoy Splendid Day's Fun.

The Jasper Social and Athletic club are certainly to be congratulated upon the wonderful success, which they fully deserved, in their first year of operation. The G. T. P. train arrived on time and unloaded fully 300 visitors from all points between 115 noon and 4 p.m. The friendly Edmontonians and Jasperites, if the former's efforts would be in vain, cleared off about \$9.20, and the sun then coming out, a glorious day was enjoyed.

The sports started off with a football game between Jasper and the boys and a stirring combination from the neighboring town of Pocahontas, the latter proving victorious by three goals to nil.

This was followed by a most exciting baseball game between Jasper and their nearest, British Columbia rivals from McBride.

The double-header would have been played today, but as the funeral of T. C. Calder takes place in the afternoon, it has been delayed. The Mr. Calder was an ardent fan and a strong supporter of the club.

City Baseball League.
Three "scheduled" games in the City baseball league take place this evening at 6:30 o'clock. The Olympics meet the Red Sox at the south side; the Wholesalers and Bulletin play at the golf links; and the Athletes meet the Royal Canadians. The latter feature senior game. Exemptors vs. Indians, has been postponed owing to the fact that no grounds are available.

They made up for the above hard luck by winning the tie of war and the tie of peace, which was a nail-biting needle and thread race, which caused lots of fun, was also won by a local lady, and quite a few of the married men went home with three ears, owing to the falling in of the children on them. The children's races, as usual, were very popular, and the kiddies certainly had a good time.

The pony races on the flat were quite interesting, and the "pig race," which was undoubtedly a novelty to nearly every onlooker, was a great exhibition of horsemanship. These events were entered in by the oil workers, the lumbermen, and Moore, of Jasper and Jasper park, and Otto Bros, the famous guides of this locality.

In the evening a grand ball was given by the Grand Trunk freight shed which the club was fortunate enough to secure. The shed was one of the surprises of the day, for it was most lavishly decorated, and the band and orchestra were quite visible through a regular garden of mountain pine trees. The effect at night was really beautiful, and the greatest pleasure due the band, who did a fine job and had to do without such a charming effect. Fully 200 people attended the dance, the music being supplied by the Pocahontas orchestra, and beginning with the supper was served the prizes won during the day were presented by Superintendent H. McCall of the Grand Trunk, and the door prizes by the various committees.

After supper was served the prizes to the Pocahontas, that a special train would take them to Jasper at 8 in the morning so that they could ride the train to their heart's content. Needless to say the announcement was received with three hearty cheers and a tiger. The band played on until 8:30 and the various committees were able to go home having the satisfaction of knowing that they had pulled off one of the best managed and most successful events which has been pulled off in Western Canada.

CARNIVAL AND RACES TONIGHT SOUTH SIDE RINK

There will be a fancy dress carnival at the south side roller rink tonight, the proceeds to go for the benefit of the Stratford Independent school. There will be ten prizes given for best dress in various classes and as an added attraction there will be seven roller skating races and a roller hockey match between two picked teams.

The races include one-quarter mile frontwheels race for men, one-quarter mile backwheels, one-half mile frontwheels and one-half mile distance for girls, ladies and couples, and as a real fun producer, a barrel race. Skating begins from 7:30 to 9:30; skating for everyone from 9:30 to 11:30.

Housework is a Real Pleasure When You Use Electricity for Home Cooking

HOME-COMFORTS

Do you realize the conveniences, the cleanliness, the real economy of electrically heated household appliances? And do you know you can have them as willing servants, doing your bidding, your ironing, cooking and heating?

Look over the list of electrically heated appliances at our store. Any one can be run on a lamp socket. Simplest plug in the wall, then screw in the socket plug which is furnished with the appliance. On the other end of the flexible cord is a lamp plug which fits the lamp and the appliance begins to heat immediately.

The moment you have finished—pull out the plug—and the flow of current stops—the expense!

Electric irons are the most popular appliances in every home. Indeed, it is hardly to be considered when one also includes their great convenience and usefulness.

Convenience and economy, however, are not the only things—think how cleanly and sanitary they are—think how much better coffee is when percolated in an electric range, how quickly and easily a sandwich or a toast is, that's made on an electric toaster—and as for chafing dishes, we'll never never realize the pleasure of a piping hot dish until you have tried the Chafing Dish.

Now you can afford to do your regular cooking by electricity. El GIGANTO makes this practical for you first.

This new Hotpoint Stove, which utilizes the glowing-coal-and-reflector principle, is so effective with so little current that it will do the kitchen cooking with the small amount of current from any lamp-socket.

Notwithstanding this, it sells at a lower price than any other electric stove of equal capacity.

The Passing of the Household Drudge

There is an old saying that a woman's work is never done. There is no six o'clock whistle for her.

That's true; there are duties and responsibilities in the household that go right on for twenty-four hours a day, and yet—

The household drudge, the woman who slaves from morning till night with never an hour for herself, is rapidly becoming a thing of the past.

A woman has the right to make herself old and careworn with hard manual labor nowadays, because—

she carries on another operation above the colls, baking your cakes, frying your potatoes, etc.

Chops

Chops are broiled in El Grille the same as cutlets except that ordinarily they are not sliced. Turning occasionally will prevent all loss of the rich juice of the meat.

Spaghetti with Tomato Sauce

Cook the spaghetti in boiling water for twenty or twenty-five minutes or until tender. Drain half a can of tomato sauce and add a bay leaf and if you want a smooth sauce strain through a sieve, but this is unnecessary.

Add one teaspoonful of sugar and one teaspoonful of onion extract and paprika to make it as hot as desired. Stir in one tablespoonful of corn starch dissolved in water and let it boil up. Turn this sauce over the spaghetti and sprinkle a teaspoonful of grated cheese over the top.

Agents:—Depew-Hillas Co.

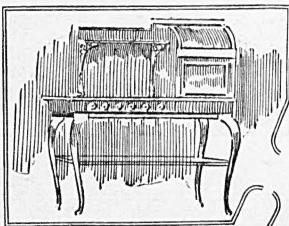

A small steak can be broiled to perfection in El Grille, proceeding the same as for chops. If the meat has been cut below the collar the meat can be broiled below the collar in the deep pan or fried in one of the pans above the collar.

Breila Bacon

Have the bacon cut about five slices to the pound. Place it in the middle pan in the corrugated tray so that the grease will run off. In about two minutes turn back in a couple of minutes more turn back to the first side. In five or six minutes your bacon will be perfectly broiled and free from grease. At the same time you can

a German physician has invented a powder for today which permits its use for removing warts without danger of bad results through its violent caustic properties.

The Stove That Cooks the King's Dinner is within Your Reach

The electric stove is no longer a toy. The Hughes Electric Range beats the gas and coal stoves in every style of cooking. It roasts perfectly. It bakes bread, pies, etc., excellently. Or, it gives a low, slow heat for stews, corned beef, etc. It surpasses even charcoal for broiling. It is supremely the lady's stove—no gas, smoke, soot, odor, ashes. No waste of heat, no overheated kitchen.

COOK WITH ELECTRICITY

Not many years ago women were cooking with wood and coal for fuel. Building the fire was an everyday task. Then came the gas range, and women could sit back and let the fire burn. But what would our grandmothers have thought of cooking without either fire or flames?

To start the cooking, you have a seat, you have a cake in an oven heated by some mysterious current, instead of open flames, would have seemed as impossible a thing to them as did the thought of flying to our grandfathers.

But cooking by electricity is now enough for even women to be familiar with the old fashioned ways of the dirt and soot, heat and delay, discomfort and danger incident to flame cooking. And how she welcome a relief from all these annoyances.

The woman who cooks with electricity works in comfort. The room is neither overheated by a hot coil range nor full of unpleasant fumes from gas. The building fire doesn't even light a match. A turn of the switch and the heat is on.

Willis J. Abbot, the versatile writer on international subjects and author of many books of history and travel, spent months in Panama and the Canal Zone in the preparation of this volume. He collected at first hand the complete history of the great Canal, with a wealth of historical data concerning Panama which has never before been written. The story is a human interest story of this beautiful land and its people from the early days when Columbus tried to find a natural waterway from the Atlantic to the Pacific, down to the present time.

Special staff photographers made the hundreds of beautiful views which illustrate practically every page of this exhaustive book.

The well-known artist, E. J. Read, made the sixteen sumptuous water-color studies which are reproduced by the latest color processes on specially made paper.
